nef protein - human immunodeficiency virus type 1 (isolate LV)

Nylleranate names: 3'-orf protein; orf-F protein

C; Species: human immunodeficiency virus type 1, HIV-1

C; Date: 17-May-1985 #sequence_revision 17-May-1985 #text_change 16-Jul-1999

C; Accession: A40007

R; Muesing, M. A.; Smith, D. H.; Cabradilla, C. D.; Benton, C. V.; Lasky, L. A.; Capon, D.J

Nature 313, 450-458, 1985

A; Title: Nucleic acid structure and expression of the human AIDS/lymphadenopathy retr

A; Reference number: A93355; MUID:85111157
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             nef protein - human immunodeficiency virus type 1 (isolate HTLV-III, 12)

Submitted to the EMBL Data Library, July 1991
A; Description: Distinct populations of HIV-1 in blood and cerebrospinal fluid A; Reference number: $21990
A; Recession: $21993
A; Molecule type: DNA
A; Residues: 1-7 <STE>
N'Alternate names: 3'-orf protein; orf-F protein
C:Species: human immunodeficiency virus type 1 (isolate BR)
A'Note: how Homo sapiens (man)
C:Date: 31-Dec-1989 Asequence_revision 131-Dec-1989 #text_change 16-Jul-1999
C:Accession: D31667; S21993; S21995; S21999; S21991
